

Table of Contents

Section 1: Bacterial infections of relevance to the tropics

- 1: Summary of medically important bacteria
- 2: Infections caused by Gram positive bacteria
- 3: Infections caused by Gram negative bacteria
- 4: Infections caused by Spirochaetes
- 5: Infections caused by Mycobacteria
- 6: Infections caused by obligate intracellular bacteria

Section 2: Viral infections of relevance to the tropics

- 7: Summary of medically important viruses
- 8: Infections caused by DNA viruses
- 9: Infections caused by RNA viruses

Section 3: Fungal infections of relevance to the tropics

- 10: Summary of fungal infections
- 11: Fungal infections

Section 4: Helminth infections of relevance to the tropics

- 12: Trematodes (flukes)
- 13: Cestodes (tapeworms)
- 14: Nematodes (roundworms)

Section 5: Protozoal infections of relevance to the tropics

- 15: Systemic protozoal infection
- 16: Protozoal infection of the gut

Section 6: Vectors and ectoparasites

- 17: Vectors

Section 7: Disease syndromes occurring in the tropics

- 18: Infections classified by organ system

Section 8: Envenomation

- 19: Snake bite
- 20: Other bites and stings
