

Table of Contents:

Psoriatic Arthritis

1. Epidemiology
2. Historical Aspects of the Disease
3. Clinical features
 - A. Psoriasis
 - B. Synovitis
 - C. Enthesopathy
 - D. Extra-articular manifestations
 - E. Bone disease
4. Diagnostic criteria
5. Natural History, Prognosis and Socioeconomic aspects
6. Psoriasis: Etiopathogenesis
7. Pathogenesis of PsA
8. Angiogenesis in PsA
9. Genetics of Ps and PsA
10. Imaging in PsA
 - A. Traditional X-Rays and X-Ray Outcomes
 - B. Ultrasound evaluation
 - C. MRI Evaluation for Diagnosis, Disease Activity and Outcome
 - D. Imaging Scoring Systems for Clinical Trials and Outcomes
11. Clinical Outcome measures in PsA
 - A. Assessment of Function
 - B. Disease Activity
 - C. Quality of LifeTreatment of the Disease
 - a) Traditional Treatments Prior to Biologics incl Non-pharmacological intervention
 - b) Biologic Treatments
12. Management of Psoriasis

Reactive arthritis

1. Epidemiology
2. Historical Aspects of the Disease
3. Clinical features and diagnostic criteria
4. Spectrum of ReA
5. Enteric infections and arthritis
6. Chlamydia-induced arthritis
7. Synovitis
8. Natural history, prognosis, socioeconomic aspects, quality of life
9. Pathogenesis of ReA

10. Genetics of ReA

11. Imaging in ReA

A. Radiographs and outcomes

B. MRI evaluation for diagnosis, disease activity and outcome

C. Imaging scoring systems for clinical trials and outcomes

12. Outcome measures in ReA

13. Treatment of the Disease

A. Traditional Treatments Prior to Biologics incl Non-pharmacological intervention

B. Biologic Treatments
