

Table of Contents:

Part I • GENERAL

- 1 History of Pediatric Surgery: A Brief Overview
- 2 Molecular Clinical Genetics and Gene Therapy
- 3 Impact of Tissue Engineering in Pediatric Surgery
- 4 Advanced and Emerging Surgical Technologies and the Process of Innovation
- 5 Prenatal Diagnosis and Fetal Therapy
- 6 Neonatal Physiology and Metabolic Considerations
- 7 Respiratory Physiology and Care
- 8 Extracorporeal Life Support for Cardiopulmonary Failure
- 9 Neonatal Cardiovascular Physiology and Care
- 10 Sepsis and Related Considerations
- 11 Surgical Implications of Hematologic Disease
- 12 Nutritional Support in the Pediatric Surgical Patient
- 13 Pediatric Anesthesia
- 14 Clinical Outcomes Evaluation and Quality Improvement
- 15 Ethical Considerations
- 16 Patient- and Family-Centered Pediatric Surgical Care

Part II • TRAUMA

- 17 Injury Prevention
- 18 Infants and Children as Accident Victims and Their Emergency Management
- 19 Thoracic Injuries
- 20 Abdominal Trauma
- 21 Genitourinary Tract Trauma
- 22 Musculoskeletal Trauma
- 23 Hand, Soft Tissue, and Envenomation Injuries
- 24 Central Nervous System Injuries
- 25 Vascular Injury
- 26 Burns
- 27 Child Abuse and Birth Injuries

Part III • MAJOR TUMORS OF CHILDHOOD

- 28 Principles of Pediatric Oncology, Genetics of Cancer, and Radiation Therapy
- 29 Biopsy Techniques for Children with Cancer

- 30 Wilms' Tumor
- 31 Neuroblastoma
- 32 Nonmalignant Tumors of the Liver

- 33 Malignant Liver Tumors
- 34 Pediatric Gastrointestinal Tumors
- 35 Diagnosis and Treatment of Rhabdomyosarcoma
- 36 Other Soft Tissue Tumors
- 37 Teratomas and Other Germ Cell Tumors
- 38 Hodgkin Lymphoma and Non-Hodgkin Lymphoma
- 39 Ovarian Tumors
- 40 Testicular Tumors
- 41 Adrenal Tumors
- 42 Tumors of the Lung and Chest Wall
- 43 Bone Tumors
- 44 Brain Tumors

Part IV • TRANSPLANTATION

- 45 Principles of Transplantation
- 46 Renal Transplantation
- 47 Pancreas and Islet Cell Transplantation
- 48 Liver Transplantation
- 49 Pediatric Intestinal Transplantation
- 50 Heart Transplantation
- 51 Pediatric Lung Transplantation
- 52 Surgical Implications Associated with Pediatric Bone Marrow Transplantation

Part V • HEAD AND NECK

- 53 Craniofacial Anomalies
- 54 Understanding and Caring for Children with Cleft Lip and Palate
- 55 Otolaryngologic Disorders
- 56 Salivary Glands
- 57 Lymph Node Disorders
- 58 Childhood Diseases of the Thyroid and Parathyroid Glands
- 59 Neck Cysts and Sinuses
- 60 Torticollis

VOLUME TWO

Part VI • THORAX

- 61 Disorders of the Breast
- 62 Congenital Chest Wall Deformities
- 63 Congenital Diaphragmatic Hernia and Eventration
- 64 Cysts of the Lungs and Mediastinum
- 65 Lesions of the Larynx, Trachea, and Upper Airway
- 66 Infections and Diseases of the Lungs, Pleura, and

Mediastinum

67 Esophagoscopy and Diagnostic Techniques

68 Esophageal Rupture and Perforation

69 Congenital Anomalies of the Esophagus

70 Caustic Strictures of the Esophagus

71 Esophageal Replacement

72 Disorders of Esophageal Function

73 Gastroesophageal Reflux Disease

Part VII . ABDOMEN

74 Disorders of the Umbilicus

75 Congenital Defects of the Abdominal Wall

76 Inguinal Hernias and Hydroceles

77 Undescended Testis, Torsion, and Varicocele

78 Hypertrophic Pyloric Stenosis

79 Peptic Ulcer and Other Conditions of the Stomach

80 Bariatric Surgery in Adolescents

81 Duodenal Atresia and Stenosis-Annular Pancreas

82 Jejunoileal Atresia and Stenosis

83 Meconium Ileus

84 Meckel Diverticulum

85 Intussusception

86 Disorders of Intestinal Rotation and Fixation

87 Other Causes of Intestinal Obstruction

88 Short Bowel Syndrome

89 Gastrointestinal Bleeding

90 Alimentary Tract Duplications

91 Mesenteric and Omental Cysts

92 Ascites

93 Polypoid Diseases of the Gastrointestinal Tract

94 Necrotizing Enterocolitis

95 Crohn's Disease

96 Ulcerative Colitis

97 Primary Peritonitis

98 Stomas of the Small and Large Intestine

99 Atresia, Stenosis, and Other Obstructions of the
Colon

100 Appendicitis

101 Hirschsprung Disease

102 Intestinal Dysganglionosis and Other Disorders of
Intestinal Motility

103 Anorectal Malformations

104 Other Disorders of the Anus and Rectum,
Anorectal Function

105 The Jaundiced Infant: Biliary Atresia

106 Choledochal Cyst

- 107 Gallbladder Disease and Hepatic Infections
- 108 Portal Hypertension
- 109 The Pancreas
- 110 The Spleen

Part VIII • GENITOURINARY DISORDERS

- 111 Renal Agenesis, Dysplasia, and Cystic Disease
- 112 Renal Fusions and Ectopia
- 113 Ureteropelvic Junction Obstruction
- 114 Renal Infection, Abscess, Vesicoureteral Reflux, Urinary Calculiasis, and Renal Vein Thrombosis
- 115 Ureteral Duplication and Ureteroceles
- 116 Disorders of Bladder Function
- 117 Reconstruction of the Bladder and Bladder Outlet
- 118 Incontinent and Continent Urinary Diversion
- 119 Megaureter and Prune-Belly Syndrome
- 120 Bladder and Cloacal Exstrophy
- 121 Hypospadias
- 122 Abnormalities of the Urethra, Penis, and Scrotum
- 123 Disorders of Sexual Development
- 124 Abnormalities of the Female Genital Tract

Part IX • SPECIAL AREAS

- 125 Vascular Anomalies
- 126 Pediatric Arterial Diseases
- 127 Congenital Heart Disease and Anomalies of the Great Vessels
- 128 Management of Neural Tube Defects, Hydrocephalus, Refractory Epilepsy, and Central Nervous System Infections
- 129 Major Congenital Orthopedic Deformities
- 130 Congenital Defects of the Skin and Hands
- 131 Conjoined Twins
