

Table of Contents:

Section One: INTRODUCTION

Cancer Epidemiology
Cancer Pathophysiology
Cancer Genetics

Section Two: MAJOR CANCERS

Breast Cancer
Central Nervous System Cancers
Gastrointestinal System Cancers
Genitourinary Cancers
Gynecologic Cancers
Head and Neck Cancers
Leukemias
Lymphomas
Lung Cancers
Multiple Myeloma
Myelofibrosis NEW!
Neuroendocrine Cancers NEW!
Sarcomas
Skin Cancers

Section Three: PRINCIPLES OF CANCER MANAGEMENT

Surgical Therapy
Radiation Therapy
Tumor Treating Fields NEW!
Hematopoietic Stem Cell Transplantation
Chemotherapy
Immunotherapy
Targeted Therapy
Hormonal Therapy
Oral Adherence NEW!
Complementary and Alternative Therapies
Clinical Trials NEW!

Section Four: PRINCIPLES OF SYMPTOM MANAGEMENT

Alopecia
Anorexia
Anxiety
Arthralgias and Myalgias
Confusion
Constipation
Cough
Depressed Mood
Diarrhea
Dizziness and Vertigo
Dysphagia
Dyspnea
Epistaxis NEW!
Esophagitis
Fatigue
Fever
Flu-like Symptoms
Hand-Foot Syndrome
Headache
Hiccups
Hypersensitivity Reactions NEW!
Hypertension NEW!
Hyperglycemia NEW!
Lymphedema
Menopausal Symptoms
Mucositis
Nail Changes NEW!

Nausea and Vomiting
Ocular/Visual Changes NEW!
Pain
Peripheral Neuropathy
Pleural Effusion
Pruritus/Xerosis
Rash NEW!
Seizures
Sexuality Alterations
Sleep Disturbances
Xerostomia

Section Five: ONCOLOGIC EMERGENCIES

Structural Emergencies
Urologic Emergencies
Metabolic Emergencies
Hematologic Emergencies

Section Six: PALLIATIVE CARE AND END-OF-LIFE ISSUES

Survivorship NEW!
Palliative Care
Final Hours
Loss, Grief, and Bereavement

Section Seven. NURSING PRACTICE CONSIDERATIONS NEW!

Communication
Cultural Considerations
Ethical Considerations
Quality and Safety NEW!
Evidence-Based Practice NEW!
Patient Navigation NEW!
Patient Education NEW!
