

## **Table Of Contents:**

### Section I: Fundamentals of Theory and Practice

- 1.Perioperative Education
- 2FOUNDATIONS OF PERIOPERATIVE PATIENT CARE STANDARDS
- 3.Legal, Regulatory, and Ethical Issues

### Section II: The Perioperative Patient Care Team

- 4.The Perioperative Patient Care Team and Professional Credentialing
- 5.The Surgical First Assistant
- 6.Administration of Perioperative Patient Care Services

### Section III: The Patient as a Unique Individual

- 7.The Patient: The Reason for Your Existence
- 8.Perioperative Pediatrics
- 9.Perioperative Geriatrics

### Section IV: The Perioperative Environment

- 10.Physical Facilities
- 11.Ambulatory Surgery Centers and Alternative Surgical Locations
- 12.Care of the Perioperative Environment
- 13.Potential Sources of Injury to the Caregiver and the Patient

### Section V: Surgical Asepsis and Sterile Technique

- 14.Surgical Microbiology and Antimicrobial Therapy
- 15.Principles of Aseptic and Sterile Technique
- 16.Appropriate Attire, Surgical Hand Hygiene, Gowning and Gloving
- 17.Decontamination and Disinfection
- 18.Sterilization

### Section VI: Surgical Instrumentation and Equipment

- 19.Surgical Instrumentation
- 20.Specialized Surgical Equipment

### Section VII: Preoperative Patient Care

- 21.Preoperative Preparation of the Patient
- 22.Diagnostics, Specimens, and Oncologic Considerations

### Section VIII: Pharmacology and Anesthesia

- 23.Surgical Pharmacology
- 24.Anesthesia: Techniques and Agents

### Section IX: Intraoperative Patient Care

- 25.Coordinated Roles of the Scrub Person and the Circulating Nurse
- 26.Positioning, Prepping, and Draping the Patient
- 27.Physiologic Maintenance and Monitoring of the Perioperative Patient

### Section X: Surgical Site Management

- 28.Surgical Incisions, Implants, and Wound Closure
- 29.Wound Healing and Hemostasis

### Section XI: Perianesthesia and Postprocedural Patient Care

- 30.Postoperative Patient Care
- 31.Potential Perioperative Complications

### Section XII: Surgical Specialties

- 32.Endoscopy and Robotic-Assisted Surgery
- 33.General Surgery
- 34.Gynecologic and Obstetric Surgery
- 35.Urologic Surgery
- 36.Orthopedic Surgery
- 37.Neurosurgery of the Brain and Peripheral Nerves
- 38.Spinal Surgery
- 39.Ophthalmic Surgery
- 40.Plastic and Reconstructive Surgery
- 41.Otorhinolaryngologic and Head and Neck Surgery
- 42.Thoracic Surgery
- 43.Cardiac Surgery
- 44.Vascular Surgery
- 45.Organ Procurement and Transplantation
