

## **Table of Contents:**

### Section I: General Overview

#### 1. Introduction:

How to use this book

Definition of Objective Terms (F, PPV, NPV, Sensitivity Specificity etc)

Comparison of evaluation findings to surgical findings and other diagnostic tests

#### 2. Subjective Evaluation:

Basis of Subjective Evaluation

Sport and Activity Specific Questioning

Baseball / throwing sports • Tennis • Golf • Swimming

#### 3. Observation / Posture:

Observation

Posture

Scapular Evaluation

#### 4. Related Referral Joint Testing:

Cervical Spine Clearing Tests

AC joint clearing

SC joint clearing

Elbow joint clearing

#### 5. Neurovascular Testing:

Sensation – sensory evaluation

Map of dermatomes

Semmes Weinstein Kit

Strength – refer to chapter X

Reflexes – brief overview

Thoracic Outlet Testing:

Rayan & Rayan Research

#### 6. Palpation:

Rotator Cuff Palpation based on Mackarey research

Palpation sequence

Indications based on palpation (Davies & DeCarlo, 1995)

#### 7. Range of Motion Testing

### Section II: Special Tests

#### 8. Instability Testing

#### 9. Impingement Testing

#### 10. Labral Testing

#### 11. Rotator Cuff Tests

#### 12. Biceps Tests

### Section III: Additional Shoulder Evaluation Techniques

#### 13. Strength Testing

#### 14. Subjective Rating Scales:

#### 15. Analysis of Sport Technique:

Tennis / Overhead throwing model:

### Section IV: Appendix and Case Studies
