

## Table of Contents

	Preface to the Fourth Edition	
	Acknowledgments	
<b>Sect. I</b>	<b>Gas Supply and Distribution Systems</b>	
1	Medical Gas Cylinders and Containers	3
2	Medical Gas Pipeline Systems	31
3	Oxygen Concentrators	63
<b>Sect. II</b>	<b>Anesthesia Machines and Breathing Systems</b>	
4	The Anesthesia Machine	75
5	Vaporizers (Anesthetic Agent Delivery Devices)	121
6	The Breathing System: General Principles, Common Components, and Classifications	183
7	The Mapleson Breathing Systems	207
8	The Circle System	229
9	Manual Resuscitators	271
10	Humidification Methods	287
11	Anesthesia Ventilators	309
12	Controlling Trace Gas Levels	355
13	Hazards of Anesthesia Machines and Breathing Systems	399
<b>Sect. III</b>	<b>Airway Equipment</b>	
14	Face Masks and Airways	441
15	Laryngeal Mask Airways	463
16	Laryngoscopes	505
17	Tracheal Tubes	557
<b>Sect. IV</b>	<b>Monitoring Devices</b>	
18	Gas Monitoring	679
19	Airway Pressures, Volumes, and Flows	755
20	Pulse Oximetry	811
21	Neuromuscular Transmission Monitoring	849
22	Temperature Monitoring	879
23	Alarm Devices	895
24	Automatic Noninvasive Blood Pressure Monitors	905
25	Electronic Recordkeeping and Perioperative Information Management Systems	919
<b>Sect. V</b>	<b>Equipment Care and Planning</b>	
26	Equipment Checking and Maintenance	937
27	Cleaning and Sterilization	969
28	Operating Room Design and Equipment Selection	1015
	Index	1039
