

Leriche Syndrome in 2025: what has changed in a century?
 Francesco Stilo, Vincenzo Catanese, Nunzio Montelione, Alessandro Ciolli, Francesco Spinelli

Abdominal aortic occlusions and thrombosis from rare causes
 Paolo Zamboni, Alessio M. Cosacco, Luca Erbazzi, Aaron T. Fargion

Aortitis of abdominal aorta: the state-of-the-art
 Enrico De Lorenzis, Silvia Laura Bosello, Maria Antonietta D'Agostino

Aortoiliac occlusive disease in women: lessons learned
 Danielle M. Pineda, Hajar Rashid, Paul DiMuzio

Current indications to treat between guidelines and real-world
 Gaetano Lanza, Jessica Lanza, Francesco Setacci, Carlo Setacci

Aortic occlusive disease: medical management risk, risk stratification and risk factor optimization before treatment
 Michele Santoro, Federico Biscetti, Andrea Flex

Anesthesiological preoperative work-up and intraoperative monitoring
 Andrea Russo, Paola Aceto, Giovanni Fasano

The ideal facility and the new technologies for the treatment of aorto-iliac occlusive disease
 Pietro Dioni, Andrea Melloni, Luca Bertoglio, Stefano Bonardelli

The use of EPTFE bifurcated graft for open anatomical revascularization
 Enrico Rinaldi, Annarita Santoro, Roberto Chiesa, Germano Melissano

Enhanced recovery protocols for direct aortic repair of aorto-iliac occlusive disease
 Efrem Civilini, Stefano Brizzi, Maria Giulia Pascucci, Enrico Giustiniano

Extra anatomic revascularization
 Alessia Di Girolamo, Francesca Miceli, Marta Ascione, Wassim Mansour, Luca di Marzo

Aortic "Coral Reef" treatment options
 Alec F. Krosser, Paul J. DiMuzio

Hybrid repair of aorto-iliac occlusive disease
 Ottavia Borghese, Jean-Baptiste Tshimbo, Francesco Sposato, Marta Minucci, Yamume Tshomba

Kissing stent: current indication and materials
 Alessandro Posa, Andrea Contegiacomo, Alessandro Cina, Roberto Iezzi

The use of intravascular lithotripsy for iliac calcified lesions
 Arnaldo Ippoliti, Fabio M. Oddi, Eugenio Martelli

Covered Endovascular Reconstruction of Aortic Bifurcation Facilitated (CERAB)
 Lucia Mangiacotti, Simona Sica, Fabrizio Minelli, Yamume Tshomba, Giovanni Tinelli

The use of devices with anatomical fixation to treat aorto-iliac occlusive disease
 Paola Orlando, Pasqualino Sirignano, Giulia Colonna, Costanza Margheritini, Maurizio Taurino

The use of Minos endograft for EVAR in patients with complex iliac accesses
 Francesco Squizzato, Marco James Bilato, Michele Antonello, Franco Grego

Aorto-iliac occlusion: current role of mechanical thrombectomy
 Edoardo Pasqui, Leonardo Pasquetti, Cecilia Molino, Gianmarco de Donato

Aorto-iliac occlusion: "the Hypogastric side of the story"
 Nicola Cicala, Alexandra Catasta, Paolo Perini, Claudio Bianchini Massoni, Antonio Freyrie

Aorto-iliac disease with involvement of visceral arteries: endovascular management
 Rocco Giudice, Carlo Coscarella, Bernardo Orellana Davila, Ciro Ferrer

Thrombosis of abdominal aortic graft and endograft
 Maxime Dubosq-Lebaz, Marta Minucci, Ottavia Borghese, Blandine Maurel

Open and endovascular repair for chronic aortic occlusion: long-term results
 Fabrizio Minelli, Francesco Sposato, Francesca De Nigris, Claudio Vincenzoni, Yamume Tshomba

Current evidence for optimization of medical treatment during follow-up
 Valerio De Stefano

Infections of abdominal aortic graft and endograft following aorto-iliac occlusive disease treatment: risk factors, epidemiology, and multidisciplinary approach
 Francesca Giovannenze, Carlo Torti, Katleen De Gaetano Donati, Rita Murri

Infections of abdominal aortic graft and endograft following aorto-iliac occlusive disease treatment: management and surgical options
 Federica Donato, Ottavia Borghese, Francesco Sposato, Tommaso Donati, Yamume Tshomba
